# Tile Insert Shower Grates

for use in bathrooms, showers and laundries

## Radiant Australia was established in 2004.

We are a wholesale business, supplying many of Australia's leading retail bathroom and plumbing stores. Once our products were considered something of a luxury item, but have now become a standard inclusion in everyday modern bathroom designs.

Radiant tile insert floor wastes and channel drains are manufactured from premium 304 grade stainless steel and are available in a wide variety of sizes to suit most bathroom and shower applications.

With the edges mirror polished and hand finished, we ensure exceptional and consistent quality across the range, adding a luxurious finish to the bathroom.

Included in the pack are the waste channel, tile insert grate, trap and siphon (puddle flange not supplied).

Now available in both Mirror Polished and Matt Black finishes.

- 304 stainless steel
- Mirror polished to all exposed edges
- Australian Watermark approved
- 12mm deep insert can accommodate up to 10mm tile + adhesive
- All shower grates are covered with a 7 year warranty for construction. The replacement warranty for the coated grates are only applicable until the date of installation. Once installed, any damage to the coatings due to the incorrect use of cleaning products, misuse or accidental damage, will not be covered under warranty.

For projects, custom sizes can be manufactured to suit, subject to M.O.Q.'s and lead times.
